

What turns him on? It's Brazilian Waxing

Brazilian Waxing has become a staple of the modern woman's grooming routine. Many men and women request these waxing treatments because it gives a clean, close wax and the freedom to wear even the most revealing swimwear and lingerie. You'll have a smooth, bump-free bikini area that looks fabulous in a bathing suit or natural.

Brazilian Wax removes the hair from the entire pubic region. We use creamy **Pink Rosette Wax** a powerful wax that shrinks wraps hair as short as one millimeter, with a 'flick and peel'!

In addition to the aromatherapy ingredients, **Rosette** also contains titanium dioxide. Titanium dioxide makes Rosette creamy and gentler, in fact, very soothing on those sensitive, intimate areas.

Waxing is also a major **Exfoliation** for your skin that allows moisturizer to really seep into your skin for complete hydration. Waxing is an excellent way to deal with most hair removal. Waxing leaves the area smoother than shaving does because it pulls the hair out from below the top layer of skin.

This is the easiest and most convenient way to go about removing hair from large areas leaving you with great smells and glides like baby soft skin.
